TURK QUILTS, REFUSES TO SIGN—LAUSANNE CONFERENCE COLLAPSES

**TURK PICKS UP

REFUSES TO SIGN**

CONFERENCE COMES AT
END OF PARLEY.

FAILURE COMPLETE

Belief in Unseen Influence Be-
hind Turk Bravado—Ends
Negotiations.

BULLETIN.

Lausanne.—The latest statement put forth officially from Near East conference quarters is that the conference is not hopelessly wrecked, but merely suspended or adjourned. This is the result of renewed efforts at mediation.

BULLETIN.

London.—Lord Curzon, the secretary for foreign affairs, who conducted the Near East negotiations at Lausanne for the British government, returned to London this afternoon.

Immediately upon his arrival he proceeded to an urgent meeting of the cabinet which had been called to consider the Lausanne proceedings.

**French Envoyless and
Lauderdale Ismet Pasha, head of the Turkish delegation, informed the correspondent Monday that Turkey had no desire to resume his talks with either Greece or Great Britain as a result of the collapse of the Near East conference, but he emphasizes that the Turkish and English armies were still facing each other in Asia Minor.**

Ismet said the Turks would ask the powers whether they consider the negotiations over at an end. The impossible was arrived among the conference delegates that Turkey would not be informed officially of the termination of the negotiations inasmuch as it was generally desired to continue the Muslim armistice thus avoiding the possible renewal of war.

The entire French delegation planned to leave for Paris this evening. The Turks will probably depart tomorrow.

It is believed that the misunderstandings which developed between the British and French delegations in the last days of the conference contributed to the final break, as the Turks got the idea that they could count on a split among the allies to obtain more favorable conditions.

Russia Warns Turks

NOT TO GO TOO FAR

Lower.—The relations between Russia and Turkey are threatened with a rift if the Angora government continues its policy of the semi-official *Pravda* hints. Under the heading "Don't go too far, Moskovia Kom and Company," the newspaper predicts that some day Turkey may need the support of Russia and says:

"Let her now while if support is not forthcoming in the event that the Kemalists persecute the communists."

Janesville.—The collapse of the Near East conference after weeks of deliberation that had been liberally interspersed with crises, led the delegations of the powers to wonder whether Ismet Pasha in refusing to sign the treaty was basing in those "uncertain factors" which presence of the allied statesmen have felt.

Rumors of a military alliance between Turkey and Russia, emphatically denied when they came to the attention of conference circles a short time ago, have revived and there are "admittedly other disturbing elements" in the situation.

Ismet informed the correspondents that until he receives a formal notification to the contrary he would consider the negotiations as still in progress. In this connection, it was pointed out that the Muslim armistice

**President Asks

Plan Be Approved**

Washington.—President Harding today prepared a statement to Congress asking for approval of the British debt funding settlement negotiated by the American and British debt commissions. It was indicated that he probably would submit his recommendations to the Senate and House tomorrow with an urgent request that approval be given without delay. Meanwhile congressional leaders continued in conference over the most acceptable way to insure passage of the authorized legislation before Congress adjourns.

Cold Wave Leaves the North; Snow Blanket Covers South

[BY ASSOCIATED PRESS.]
Chicago.—While the northward and central west had relief Monday from the cold wave that sent the mercury down to new low levels for the season, the southern states were suffering from the coldest weather in several years, attended in some districts by snow, sleet or rain.

None of the southern states were to be slighted by the cold wave it appeared, the forecaster's report warning Virginia, North and South Carolina, Georgia, Florida, Alabama, Mississippi and Louisiana and probable rains, sleet or snows accompanied by dropping temperatures resulting. For the majority relief was predicted tomorrow.

In California sunshine yesterday rotted the fears of citrus growers that their crops would be ruined by frost. Today the forecaster said, was to bring forth rising temperatures in the upper lake region and the upper Mississippi valley westward to the Rocky mountains.

Vicksburg, Miss., was covered with snow and sleet today to a depth of seven inches and street car service and telephone communication was greatly demoralized as a result. Louisiana and Arkansas were al-

most an unbroken blanket of snow and sleet in the northeastern and southern sections respectively. The mercury dropped to twenty degrees above zero in some districts.

Adjt. Gen. Orlando Holway, Madison, Pneumonia Victim

Janesville.—With the death Saturday at Trinity College, Hartford, Conn., of Adjutant General Orlando Holway, active head of the Wisconsin National guard since 1913, the state lost its most notable military leader. The funeral will be held here Tuesday afternoon, and a military funeral at La Crosse, Wednesday.

Adjt. Gen. Holway had been connected with the state guard serving in every position from that of private to brigadier general. He was at his post here until last Tuesday when bad cold forced him to go to his home. Pneumonia then developed and death followed.

Born in a farm in La Crosse county in 1883, Gen. Holway was educated in the high schools and later at the Shattuck Military academy and

Flags on the tank and cavalry armories in Janesville fly at half-mast while the Wisconsin national guard mourns the death of Madison, Saturday, of Brigadier General Orlando Holway, the adjutant general. Capt. Ralph Harmon of the Tank Corps and Capt. Gilman H. Storck of the Janesville cavalry troops will attend the services to be held at the residence in Madison at 11:30 a.m. Tuesday.

Both officers expressed deep regret at the loss the national guard has suffered in the death of General Holway.

"There never was a military man better liked," said Capt. Storck. "And this was largely because of his democratic ways. A buck private was just as much at home talking to him as a general. He brought the 32nd division up to its quota before the war and was largely responsible for the Wisconsin National guard being at the top today."

The Wisconsin national guard had especially the Janesville units have lost a good friend and staunch supporter in the death of General Orlando Holway," said Capt. Harmon in expressing regret at the death of the man whom he knew personally. "It was largely through his efforts that Janesville was made the home station of two of the most sought companies in the state guard, the tanks and cavalry."

Under orders from E. S. Driver, assistant adjutant general, the flag will be flown at half-mast on all armories of stations of organizations on Tuesday and until 3 p.m. Wednesday, when funeral services will have been held at La Crosse.

Farm Bureau Official Information

FORT ATKINSON RECORDS

During January there were 217 cows tested in the Fort Atkinson testing association. The report shows that 58 cows heisted, 54 were dry. Test grade Guernsey cows, four purebred Guernsey bulls and six purebred bulls were sold for breeding stock. Two grade Guernseys and three grade Holsteins purchased by association members and two bulls passed clean federal and state T. B. tests.

Guernsey Peter's high cow was fed 23 pounds of two part corn and cob meal, two parts bran and one part oil meal in addition to 36 pounds silage, 14 pounds beets, 18 pounds soy bean hay and shredded corn stalks. Charles Shuman's high herd was fed grain ration consisting of equal parts of barley, corn, oats and oil meal. Royal Sengbusch's herd was fed a grain mixture of 400 pounds oats, 200 pounds corn and cob meal, 200 pounds bran, and 100 pounds of meal. Twice this much feed would have resulted in even higher production, reports the tester.

The 217 cows in milk produced an average of 226 pounds of milk and 32 pounds of butter-fat for the month of January, a decrease in production from a year ago of 67 pounds of milk, 1.6 pounds per cow. The valuation is \$3.95 per cow. The feed costs are practically the same, being but 6 cents higher for the month than last year. However, the value over feed costs for each cow for the January period including the 54 that were dry is \$8.51. Compared with the report for January 1921 the recent increase in the price of feed needs and the decrease in price of butter, combine to such an ill effect that a cow giving 900 pounds of milk or 33 pounds of fat a month would have but 74 cents at the end of the year to pay her taxes, rent and labor bill.

The difference in profit and loss for the farmer in the last two years being caused by a difference of 15 cents a pound for butter-fat receipts.

MONROE TESTING MARKS

There were 222 cows tested in the Monroe Testing association. Six cows from the herds were disposed of as being "boarders" and three sold for dairy purposes.

The association is free from serum taxes and all members pledged not to use dairy substitutes. More than 85 per cent of the association members test regularly for bovine tuberculosis.

OFFICERS ELECTED AMONG BEEKEEPERS

W. A. Ross, Pres., Hjorth, V. Pres., and Simon Ries-ter, Sec-Treas.

FAIR COMMITTEE TO MEET FARMERS TO LIST PREMIUMS

Officers for the Rock county beekeepers' association, formed a year ago, were elected at the meeting held in the court house Saturday. The association had 47 member last year, and is the most successful in its organization and advertising efforts.

The officers for the coming year are: President, W. A. Ross; Vice president, A. N. Hjorth; Secretary-treasurer, Simon Ries-ter.

In addition to a discussion of mar-

ketting problems, the beekeepers were given instructions on the pre-

paration of their bee colonies of the surplus honey flow. Vigorous queen, it was declared, meant strong colonies for the apriaries.

The agriculturists of Rock county have united through their association to adopt newest methods in caring for their bees, to improve upon the marketing efforts of last year by better grading and standardizing.

One-third of the amount received by Tony Maguire, Deloit, in settling his claim against the Chicago and Northwestern railroad for loss of one case goes to Henry R. Rathbun, Chicago lawyer, who handled the case. The settlement was for \$5,000.

The following table gives the names and records of the cows in the association which have produced between 50-60 pounds of butterfat during the period of 31 days ending Jan. 31, 1922.

APOLLO THEATRE

*An Open Letter to The People
of Southern Wisconsin*

A Statement of Policy for 1923

I take great pleasure in expressing my gratitude for the hearty support given me by my patrons during my ten years of successful theatrical business.

I feel very proud of the citizens of this community whose standards of taste in amusements are inclined to the more refined presentations.

In my earnest endeavor to secure better attractions at all times, I have just signed contracts for the entire year of 1923 with the best producers, among whom are the FIRST NATIONAL EXHIBITORS CIRCUIT—their entire list of super-specials; PAR-AMOUNTS—their super-specials. These pictures will be exhibited alternately throughout the year. A few of these leading pictures which I have booked for early showing are:

| | |
|-------------------------------|-----------------------|
| "The Hottentot" | "Oliver Twist" |
| "Java Head" | "Grumpy" |
| "Dangerous Age" | "Fury" |
| "Voice of the Minaret" | |

And others to follow.

The first four days of each week will be devoted to big super-special photoplays, and the last three days of each week to vaudeville and special comedies.

My connection with the Western Vaudeville Managers' Association of Chicago, enables me to get the cream of the picking from Chicago Vaudeville offices, and permits me to show at all times the best vaudeville programs possible to present in a city the size of Janesville.

I have given specific instructions to my representatives not to pick any acts but those which will meet the approval of my patrons. On this point I feel inclined to judge because my experience is based on ten years of pleasing the theatre-going public of southern Wisconsin.

Therefore, you are assured of seeing Vaudeville programs at the Apollo during 1923, which you will not be able to find in other cities of equal size.

From time to time I will present the better Stock Company attractions such as the Winningers and other varieties, as well as several Tabloid Musical Comedies.

Very sincerely,

Manager.

Predicts Second World War Would Ruin Civilization

A strong answer in the negative was the conclusion of the talk on "Is Human Progress a Delusion?" given before the Woman's History Club at the First Congregational Church afternoon, by Prof. Theodore George Soares, of the theological department of the University of Chicago. That Prof. Soares' address was one of the best given before this club was attested to by the continued applause to which he bowed.

Prof. Soares covered the entire field of mankind and displayed a high ability. The last point was not clear in Prof. Soares' mind, but was made clear in the minds of all his hearers. A keen sense of humor added to the entertainment and the hour and a half of unbroken talk seemed all too short.

Discussion of the past war played a large part in the talk.

"There will never be a third world war," said Prof. Soares, "and we have just completed first one, and the second one would destroy our present civilization and close the second chapter of the history of man kind."

The first chapter, he said, was Semitic culture, the second is the present, the third will be that of

the Mongolian race. On the supposition that human progress is a delusion, he said that all civilization and morals move in circles.

"There is nothing in Roman civilization that was worse than things which exist today," Prof. Soares remarked in telling that "perhaps we have reached the height of our civilization which will be the end." The nineteenth century was the supreme human disappointment. We had control of the earth and its forces and we should have done something, but we did not.

Civilization is always built on the most aristocratic races, he said, and the greater the difference in status between the upper and lower classes the greater the civilization. Then there is the upper end will have more time for leisure and art while the others perform the mental labors.

"Do you suppose the pyramids would ever have been built if masters cost \$1.50 an hour in the old days of Egypt?" But that is no need people who will be little better than slaves to do the menial work. Do away with that work through reason why we should feel that we have developed, and bring everybody into the glories of mankind that are his.

"Sympathy is the greatest thing human nature has produced, and it is the enlargement of sympathy in the past few years, and a great deal through the war, that makes me confident of the future of human kind."

Delightful illustrations were shown by Prof. Soares.

Peace Progress Made by War City

BY FREDERIC J. HASKIN

Hopewell, Va.—A new chapter is being written in the dramatic history of Hopewell.

Most of us remember Hopewell as the great gunpowder town of the war—a town of wood and tar paper like an overgrown mining camp. Hopewell sprang up in six months over a Virginia cornfield, and gained fame as a city of 15,000 people dedicated by the du Ponts to the making of one single article of destruction for the war.

It bore the picturesque title of the most wicked city in the United States. It had in its earliest days all of the types of vice that made the gold colonies of '49 famous. Pool rooms, saloons, gambling houses, and dance halls thrived on the recklessly spent money of the gunpowder makers. Women unscrupulous were not safe on the streets. Train drivers and store keepers carried revolvers.

One of the most remarkable land booms in American history took place here in this hectic period. A typical story is that of a drunken man with \$500 in his pocket who attended one of the gales of looting. He paid out one-fourth cash on land as long as his money lasted. Next day he was sober and penniless. A week later he had sold his holdings for \$11,000.

When the firing in Europe ceased, Hopewell was daily turning out 1,500,000 pounds of the explosive used in making smokeless powder. The order came to stop work as soon as possible, and in month the 45,000 population dropped to 2,000.

People who had come into Hopewell riding on top of crowded trains now sought to get away. Furniture was moved in every possible kind of conveyance—even abandoned. Storekeepers tried desperately to sell out stock and close business. Hopewell was part of the war and nothing more, people said. Its day was done. The du Pont company started work at once to dispose of all materials and machinery that could be salvaged. Cleaning out porters and blind tigers and covering the laws.

Establishment of a real estate mortgage company to make the building of homes more easily accomplished. Added a room in the post office by building an annex.

THE EXTRAORDINARY VICTORY FOR FARM CREDITS

That a measure of the importance of the Lenroot bill for the establishment of farm credits should pass the United States senate by unanimous vote is an extraordinary tribute both to the author and the subject matter of the bill. But that is what occurred in the senate Friday afternoon when the vote was taken. That period was not arrived at without some acrimonious debate and efforts on the part of the most radical bloc in the senatorial body to defeat the measure. Brookhart, La Follette and Couzens had determined to send it back to the committee where the Brookhart bill, proposed as the most radical and revolutionary legislation, should be given a further hearing. It was at this time that Senator Lenroot with consummate skill led the parliamentary forces to a strategic position. It was here also that the leadership of Couzens was shown to be no leadership at all. Senator La Follette consistently voted against the bill in its various stages until it came to passage. Then the only vote against it was by Senator Norbeck, of South Dakota, who changed his vote and the credit bill received unanimous support from those present and voting.

There is nothing complicated about the bill. It simply aids to the loaning power of the 12 land banks of the nation \$600,000,000, to be used to rediscount paper and advance money on warehouse receipts of cooperative companies. It makes it possible to market crops in an orderly manner and not to throw them on the market all at once when prices are forced down. These credits can be further increased by the issue of debentures not to carry over 6 percent up to a total available sum of \$1,200,000,000 for the same purpose—extending credit to the farmers of the nation.

The Copper bill already passed by the senate provides for the extension of the life of the War Finance board and adding to the powers of that organization for the extension of credit. The Lenroot bill has no time limitation for its operation and is an additional feature of the banking business of the country.

What's all this talk about Europe getting back to normal? Europe is only normal when it is quarreling or on the verge of a crisis.

LINCOLN DAY.

It is time we should think about America. On the 12th of February is the birthday of Lincoln and on the 22d the nativity of George Washington. Washington and Lincoln, representatives of two diametrically opposite types of men and both Americans true and tried in the crucible of fire and time!

Every school in the land should remember these birthdays with appropriate ceremonies. Lincoln points the way to the lowliest man or woman in all this world, that opportunity is still here at hand ready to go along with the one who finds and accepts it.

The Saturday and Sunday Gazette will have much about Lincoln and his life.

It is time we taught more of the homely and honest and truly American, Lincoln, and less about some of the dealers in cheap philosophy and bunk about life. We have too many mountebanks selling mental medicine and too few who teach the simple life. It will be refreshing to get back to the genuine article as evidenced in the 56 years that Lincoln lived.

The price of elephants has gone up rapidly. There are several white ones congress would like to dispose of right away.

POLITICIANS AND CITY MANAGER LAW.

The Kenosha News in a timely editorial calls attention to the effort on the part of the enemies of city management to break down the effectiveness of the law by attacking it from the outside in piecemeal. One of these is the effort to have legislation passed to preserve the police and fire commissions in the cities where city management has been adopted and make it impossible to take away their control. Under the managerial law these commissions may be permitted to go on and function under the direction of the manager or they may be abolished. But the entrenched power of booze and corrupt municipal politics see in that power the greatest danger to their interests in the future.

From every part of the state comes inquiry about the manager form of government. At least a dozen cities are contemplating campaigns for

FATHER TO SON.
Come and tell it all to me.
Tell me how the shame occurred;
Tell me, whate'er it be told;
Let me have it every word,
I can spare you many a blow
If you'll let me know.

Son, don't ever be afraid.
Come to me and let me hear
Every blunder you have made,
Come to me and have no fear;
I can save you many a fall
If you only tell it all.

Seek no stranger's counsel then,
You've no true friend than I.
Never turn to other men,
Never hide behind a lie;
Come and let me know the worst,
Tell it to your father first.

This one pledge I ask of you,
Whate'er may befall.
I shall get the truth from you,
You will trust me through it all;
Tell me what has happened and
Have no fear, I'll understand.

When in trouble come to me,
Come to me and have no fear;
Always let your father be
First of all your tale to hear.
Though you hang your head in shame,
Come and tell me just the same.

Worse than all the wrong you've done
Would the cruel know be done;
Should I learn some day, my son,
That you were afraid of me.
Hurt and crush me if you must,
But don't rob me of your trust.

As queer as I could wish.
I stand around and stare at them
And watch them as they play,
And wonder at their clumsy mugs.

And if I think they're shy or lookey,
What do they think of me?

Who's Who Today

DAVID N. MOSESSOHN.

The dictator is becoming an institution in "big business." The motion picture industry, the theatrical producing managers' organization, organized baseball, all have their arbiters or directors and now following their lead the Associated Dress Industries of America have named David N. Mosessohn director of the dress industry of the United States with plenary powers.

Mosessohn is about forty years old. He was formerly a newspaper man in Portland, Oregon, and was interested in organization work even then. Later he took up law and his interest in organization work increased. With his brother he would some such work with the Chamber of Commerce in Portland. Five years ago he left the west to become secretary of the United Waif League of America in New York City. He first went to New York on a visit but his brother urged him to remain and after six weeks he returned to the west coast to settle his affairs, sell his belongings, and make his home in New York.

It was a chance meeting with J. J. Goldman, a dress manufacturer, which gave Mosessohn the idea of organizing the dress industry. After it was first brought to his attention he took thirty days to look over the field. At the end of that time he called a meeting to form the organization. Thirty-one members were present.

Today the organization has grown to a membership of 500 covering the United States. Its members do the bulk of the nation's dress business which has been placed at between \$750,000,000 and \$1,000,000,000.

CATTLE

Chicago.—Owing to the stagnant condition of the dressed beef markets, the live cattle trade was a gloomy affair during the week ending Feb. 1, and values declined a good deal up to the time of the two market days. Some limited price recovery, but closing values were still a good 25¢ lower than the low close the previous week. It was due to the unseasonably high temperatures and an abundance of lower priced poultry and eggs that demand for beef was so sluggish.

BUTCHER STOCKS

The better grades of beef cows and heifers were hard to sell most of the weeks and despite a slight improvement over the first few weeks of the period values on these kinds stood around 25¢ to 50¢ lower for the week. Butcher stock quotations follow:

Stocks, Corn-Feats.—The market on stock cattle was very slow last week and prices were weak to 25¢ lower on practically all grades of stock steers. Feeder cattle were scattered, and a good many loads of strong weight steers of good and choice grade went to the market at \$1.75 to \$1.70 during the week.

Last week's general hog business averaged slightly higher than the previous week, the week's average price at \$2.55 showing 10¢ advance as compared with previous week, but showed a decline of 8¢ compared with a year ago.

Canned Hams.—Offerings last week ranged from \$1.15 to \$1.30. Price fluctuations were wider than usual during the week, the latest price standing at \$1.25, about 10¢ lower than while last week's low, top price of \$1.45 stands within 10¢ of the lowest since December 16.

Extremely large price widenings as the week advanced with "spread" between common heavy packers and choice light being the widest in three months.

Estimated average weight of hams last week at 235 lbs., equals previous week, stands 6 lbs. heavier than a year ago.

STATE BANKS JOIN FEDERAL RESERVE

Drive to Increase Membership to Aid Farm Communities.

BY DAVID LAWRENCE
Copyright, 1922, by Janesville Daily Gazette.

Washington — A determined attempt is to be made by the federal government to persuade state banks to join the federal reserve system. The resolution introduced in the Senate by Mr. McLean of Connecticut, chairman of the Senate Banking and Currency Committee, for an inquiry into the subject, will be adopted. It constitutes a frank recognition by the administration that state banks are needed in the federal reserve system and that many of the causes which have prevented them from joining the system are largely external to the banks themselves.

The regulations made by the federal reserve board in 1920 are attributed to the revolt of the farmer, the uprising which in the west put into office radical republicans and democrats. Also the agricultural depression produced an agitation for a "live farmer" on the federal reserve board itself, and such a member now sits on the board. But fundamental rights of control between the federal reserve board and the agricultural communities is now believed to have been due in large part to the great number of banking institutions which were not in the federal reserve system and whose individual situations therefore could not be brought to the attention of the Federal Reserve Board as readily as it was being done. The number of national banks in the system is slightly over eight thousand, and only 1,448 state banks have joined. In fact there are almost as many banks in America which are not connected with the federal reserve system as are in it. Also the average capital and surplus of the state banks which are members of the federal reserve system exceeds by four hundred million dollars the average capital and surplus of the national banks.

Farms Farm Sections.

"The failure of the eligible country banks to become members of the federal reserve system," says George Meyer, president of the director of the War Finance corporation, "has deprived many agricultural communities of the full benefits of the system. The experience of the War Finance corporation in administering the agriculture credits act has demonstrated conclusively that, in times of stress, the non-member banks in the country districts are greatly handicapped in access to central reservoirs of credit. Approximately eighty-five per cent of the banks to which the War Finance corporation has made loans are state institutions, and only about 15 per cent are national banks. In terms of dollars the loans of the corporation to state banks constitute 80 per cent of the whole. And these figures do not take into account large advances made by Bostwick loan companies which are organized under state laws and are not eligible for membership in the federal reserve system."

Problem of Persuasion.

Mr. Meyer is one of the men who believe the problem of persuading the state bankers to enter the federal reserve system is one of "administration rather than of legislation." This means an educational campaign. Senator McLean is taking the first step with the knowledge and approval of the Harding administration.

Mother-Daughter Banquets to Be Held This Month

Mother and daughter banquets are to be given in Janesville churches in February on such dates as each church may decide. This was the decision of the Council of Older Girls at its meeting in the Y. W. C. A. Sunday afternoon. Representatives of the First Baptist church reported their mother and daughter banquets would be given Feb. 8 at the same time as the father-daughter banquet. The two groups will assemble at separate tables in the dining room. The after-dinner programs will be held in different rooms.

It was suggested the third week in February would be a good time for the banquets in the other churches if other church affairs do not interfere. The mother and daughter banquets have been held in May heretofore, and the change of date is the result of a decision made by the state conference.

Federal Reserve and Farmer.

The regulations made by the federal reserve board in 1920 are attributed to the revolt of the farmer, the uprising which in the west put into office radical republicans and democrats. Also the agricultural depression produced an agitation for a "live farmer" on the federal reserve board itself, and such a member now sits on the board. But fundamental rights of control between the federal reserve board and the agricultural communities is now believed to have been due in large part to the great number of banking institutions which were not in the federal reserve system and whose individual situations therefore could not be brought to the attention of the Federal Reserve Board as readily as it was being done.

The Young Women's Council of the Y. W. C. A. extends an invitation to all older girls in the city to attend the valentine party and class registration rally in the association rooms at 8 p. m. Tuesday.

The tentative schedule for the second term embraces several classes other than those conducted the first term. A glee club is to be formed for practice on Sunday afternoons at 4, if a sufficient number of girls register.

Other classes are contemplated, one for Monday night to study "The Bible as Literature," and another on Friday night to take a course in Christian citizenship.

There will also be classes in handcraft, basketry, cooking, needlecraft, millinery, Italian cut work, and a class for health talks.

AT THE THEATRES

AT THE BEVERLY

Constance Talmadge's last comedy preceding that "great" one she has made—"Doll Face" is being shown at the Beverly the rest of this week. It is "The Primitive Lover," and although it will not rank with the best shows, Constance is as good as Miss Talmadge best in such pictures as "The Vamp" and "Polly of the Petites" and the trouble of getting into the show is well worth it for this state scene with. She is essentially a comedienne and would be better liked in pictures a little more like "The Beverly" and "Doll Face."

It was suggested the third week in February would be a good time for the banquets in the other churches if other church affairs do not interfere. The mother and daughter banquets have been held in May heretofore, and the change of date is the result of a decision made by the state conference.

Reports as to basketball team

were presented and it is expected a new interchurch league will be formed as soon as the practice schedule can be worked out with Miss Helen West, Y. W. C. A. physical director.

Miss Genevieve Hughes explained the drive for funds to support the older girls' training camp at Lake Geneva, and the council will have a bazaar sale next Saturday to raise funds for this purpose.

LOCAL STARS FAIL TO JOIN LEADERS; MCNEILS ARE HIGH

Busy Man's Sport Page

By FRANK SINCLAIR

SPECIAL TO THE GAZETTE
Green Bay—Janesville bowlers of the ten pin alleys failed to make an impression on the high standings of the Wisconsin state bowling meet Sunday. Rolling on the last shift, the keglers from the Bowler city found that first class alleys are a handicap.

The McNeils hotel of Janesville kept their season's record in the southern city's league games by out-sprinting the other nine teams. Rivington a 2,625 count. Here is the way the other Janeville boys rolled:

McNeils Hit 904.

West Side, 2,153; Cronin, Dairy, 2,347; Knipp Billiards, 2,303; Kiwanis club, 2,241; Lewis Union Suits, 2,251; Grebe & Newmark, 2,334; Kegel, 2,082; Lake Club (Milwaukee), 2,066.

In getting their 2,625 count, the McNeils hit frames of 828, 893 and 91. The West Sides were second for a single game with 850, and the Gazette third with 817.

Richardson High.

"Doc" Richards and Jess Cornell presented their consistent efforts displayed on Janesville alleys. Cornell had high three games of 588 (174-200-194) and Cornell high of 554 (175-182-200). Loeder of the Lewis Union had a 553 count (172-185-196) and Wylie of the Cronin Dairy 552 (178-180-193).

High individual count was made by Whales of the West Side, a 26. Sennett of the Mohawks was second with 202. Richards and Cornell each had 200, the only other 200 counts made by Janesville.

Choice of the 1924 tournament city is expected to be made Monday night.

DRASTIC CHANGES OCCUR IN ALL MAJOR PLACES.

Greens Bay—The 21st annual Wisconsin state bowling tournament, entertainments and pin artists from Janesville, Kenosha, Oshkosh, Watertown, Madison and other southern Wisconsin cities marked the most drastic changes in the politicals. The All-American Milwaukee dropped to 10th place, included in the Nelson-Mitchells, Milwaukee; Van Engel Commissions, Milwaukee; Oshkosh Blanks, Oshkosh and the Eskimo Tops of Kenosha, who now hold first, second, third and fourth places. The Nelson-Mitchells lead with 2,908.

Although the lead is 1, Schneider-H. Schneiders, Milwaukee, still hold their own in doubles, second, third and fourth places went to W. Duerer, J. Vana, Kuenzl, Watertown; C. Baler-J. Vana, Milwaukee and C. Lonnington-J. Cantwell, Kenosha, respectively.

E. Rehbein, Oshkosh, scoring 1,867 in all events, took top lead from G. Pohlen of Milwaukee.

Standings of leaders:

Five men—Nelson-Mitchells, Milwaukee, 2,908; Van Engel Commissions, Milwaukee, 2,856; Oshkosh H. Gosh, Oshkosh, 2,844; Eskimo Tops, Kenosha, 2,836; Milwaukee, 2,835; Milwaukee, 2,845.

Doubles—P. Schneider-H. Schneiders, Milwaukee, 1,218; W. Duerer-W. Vana, Kuenzl, Watertown, 1,212; C. Baler-J. Vana, Milwaukee, 1,200; C. Lonnington-J. Cantwell, Kenosha, 1,194; F. Samong-W. Stieve, Milwaukee, 1,187.

Singles—H. Nolte, Milwaukee, 663; W. Morgenroth, Milwaukee, 667; J. Rehbein, Milwaukee, 661; W. Pierce, Menasha, 659; C. Schmidt, Sheboygan, 642.

All Events—F. Rehbein, Oshkosh, 1,867; W. Morgenroth, Milwaukee, 1,855; H. Wille, Milwaukee, 1,806; G. Pohlen, Milwaukee, 1,805; A. Parham, Milwaukee, 1,802.

A pimply face will not embarrass you much longer if you get back your Olive Tablets. Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanses the blood, bowels and liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's no sickness or pain after taking them.

Dr. Edwards' Olive Tablets do what chemist does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with "dark brown taste," a bad breath, a dull listless, "no good" feeling, constipation, torpid liver, bad disposition or pimpy face.

Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints, and Olive Tablets are the incomparably effective result.

Take one or two easily for a week.

See how much better you feel and look. 15c and 30c.
